 For countries not included in the list above, please contact the relevant authorities and inform yourselves about the permitted frequency ranges for your country.

***1** - 534 - 542 not available in Iceland.
***2** - In Portugal, only use of transmitting microphones in sub-bands 607.28 MHz and 62.78 MHz and 42.78 MHz and 4.78 MHz is allowed. AM, FM/75 MHz and 758 MHz on the Continent = effective radiated power.

***3** - License exemption. Geographical restrictions for the sharing usage with the TV Broadcasting. It is needed to contact the National Spectrum Management Authority.
***4** - Use of the frequencies for the EC countries is according with EC order 2009/1400/EC based on the "Agreement to CEPT for the harmonized technical conditions for the 698-710 MHz, 710 MHz/727 MHz/747 MHz frequency band in the EU for the provision of wireless broadband and other uses in support of EU spectrum policy objectives" and taking into account the decision to introduce PMG services.

***5** - This station for wireless microphone operation in the U.S. is currently in Florida due to the upcoming auction of the 160 MHz television band frequencies, which is planned to start on 29 March, 2018. Much less HF spectrum is expected to be available after this part of the TV broadcast band is "reopened".
